

Dear Valued Clients/Members,

We want to inform you about a recent development regarding the availability of some GLP-1 medications. The FDA has reported that various doses of these medications are currently in limited supply nationwide. Despite efforts by drug makers to increase production, it remains uncertain when they will be able to meet the current demand fully.

***Ozempic *Wegovy *Mounjaro *Zepbound**

PLEASE NOTE:

- **PCA Rx cannot provide support in this matter as the shortage is beyond our control and lies with the manufacturers.**
- **This shortage is expected to persist throughout the year and will increase over time.**
- **While various doses are available at different pharmacies, it is the responsibility of patients to source availability by contacting pharmacies directly.**
- **Advise members to consult their prescribers about switching to alternative dosages or other GLP-1 medication options.**

We understand the importance of uninterrupted access to medications for our clients/members, and we would like to encourage you to stay informed about this issue. There are several articles available online regarding this shortage.

PCA Rx is closely monitoring the drug shortage situation and will provide updates as they become available. Your health and well-being are our top priorities, and we appreciate your understanding and cooperation during this challenging time. If you have any further questions or concerns, please do not hesitate to contact us. 855.283.7882

Thank you,
The PCA Rx Team
