

ELEMENTARY TO MIDDLE SCHOOL EDUCATIONAL PLANNING

Educational planning is designed to assist students as they make important decisions in preparing for their middle school and high school educations and their post-graduation careers.

- 1. Parents and students will attend one virtual informational educational planning presentation with middle school counselors at any school available from January 19-29, 2021. Parents will receive links from their elementary school counselors and may contact their elementary school counselor for more information.**
- 2. Students will review the informational educational planning presentation with middle school counselors during the week of February 1-5, 2021.**
- 3. Students will review and submit course requests online through Google Classroom with elementary school counselors.**
- 4. After middle school counselors enter course requests into the system, parents will receive a list of their child's course requests for review.**
- 5. Parents and students can submit course request changes to middle school counselors before Monday, June 7, 2021.**
